DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on July 9, 2004 has been entered.

Allowable Subject Matter

Claims 1-3, 6-8, and 25-28 are allowed.

The following is an examiner's statement of reasons for allowance: As noted in the previous Notice of Allowance, the prior art fails to teach, or make obvious, simultaneously flowing the barium, strontium, and titanium precursors and oxidizer while changing the flow rate of the oxidizer in order to produce a non-homogeneous ratio of barium relative to strontium within the deposited barium strontium titanate layer. The references cited in the IDS filed July 9, 2004 also failed to teach, or make obvious, this limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
